

SunSplat

FEATURES & BENEFITS

DESCRIPTION

SunSplat is an economical decorative spray coating applied to existing vertical or horizontal surfaces. SunSplat provides protection against weather with a maintenance-friendly coating. Effects such as Custom Scoreline, Aggregate Effects, and Masonry Effects can be added. Its texture and acrylic properties provide a skid resistant surface ideal for high-traffic areas.

SunSplat is a spray-textured acrylic coating that is sprayed and not trowelled, thus leaving an "orange peel" effect.

FEATURES & BENEFITS

- Texture is safe, durable, and attractive
- Provides protection against weather, salts, and environmental pollutants
- Maintenance-friendly coating
- Add design effects such as Aggregate Effects, Custom Scoreline, and Masonry Effects
- Acrylic finish coat offers a wide choice of colors
