

SunChip

Multi-Color Chips

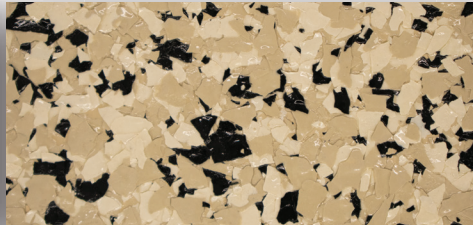

SUNDEK offers 14 different multi-colored vinyl acrylic paint chips embedded in SunOne Polyaspartic and SunEpoxy floor coating systems. Standard chip size is 1/4", but can also be ordered in 1/8" and 1 inch. You may choose from a variety of colors and chip sizes to get the look that you desire. Larger chips create the look of terrazzo or granite, while smaller chips give a hard surface carpet appearance. SunChip offers proven durability and longevity for many applications.
