

SunStain SunH₂O – Water base stain

The Eco-Friendly coloring effect that allows combining natural tones on all overlay systems

DESCRIPTION

SunH2O is a proprietary blend of specialized water- soluble polymers and liquid pigments, designed for staining concrete or any type of cement overlay. A highly adhesion promoter has been added in to the formula that gives SunH2O exceptional adhesion to concrete surfaces, giving it major advantages over competitive water based stains.

SunH2O is ideal for creating unique looks in many commercial and residential settings. Recommended applications include restaurants, showrooms offices, home interiors, patios, garage floors and driveways.

Sundek Products Needed

- SunH2O
- Sundek Crystal Clear

Product Description

SunH2O – A water base color dispersion.

Sundek Crystal Clear – A one part urethane solvent base sealer (30% solids)

Application Instructions

Clean surface by power washing and removing all contaminants. Allow drying until there are no visible signs of water or moisture. Apply SunH2O through out surface. Once tack free, apply Sundek Crystal Clear. Slip resistance agents may be added for safety.
