

You stand on it.

SunCanvas is a versatile microtopping coating that looks like marbled flooring. The multiple layers of polymer rich, integrally colored decorative concrete form a highly durable and nearly indestructible flooring surface.

This thin, smooth coating can be installed on outdoor patios, high-traffic retail floors, and even on concrete walls.

Architectural Microtopping

We stand behind it.

## SUNDEK's SunCanvas

is a thin epoxy-based coating that is troweled onto the concrete in layers. A final clear seal provides chemical and abrasion resistance.

Get a durable, easy to clean floor that looks high-end and compliments your space.

## BENEFITS

- Can be installed on interior or exterior floors
- Hypoallergenic, chemical, and abrasion-resistant
- Breathable, durable, and easy to maintain
- Thin, seamless coating that has limitless design options
- Repair and cover any damages, cracks, or blemishes on the concrete
