INTRODUCTION & PARTNERSHIP

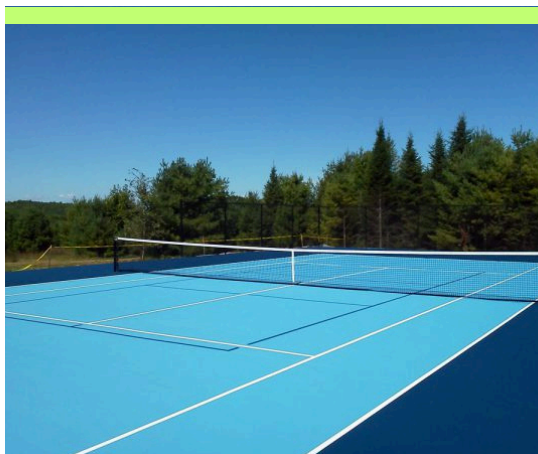

WHY THIS PARTNERSHIP MATTERS

Since 1984, Nova Sports USA has been dedicated to manufacturing the highest-quality all-weather sport surfaces in the world.

Each system is built with premium acrylic formulations, engineered for performance and durability.

As a Sundek installer, we are proud to partner with Nova Sports — meaning you have access to certified systems and turnkey installation/resurfacing across tennis, multi-sport, basketball, pickleball and more.

Our promise: one source, one team, exceptional court surfaces that stand the test of time.

WHY SURFACE SYSTEMS MATTER

*FROM THE GROUND UP -
WHY PREP & REPAIR MATTER*

A premium surface system only performs when the substrate is properly prepared. Cracks, poor adhesion, moisture issues — these are the hidden faults that shorten lifespan and degrade experience.

Nova Sports' Preparation & Repair product line sets the foundation: patching, leveling, priming, resurfacing. When you install with Sundek + Nova, you address the root causes, not just the cosmetic finish.

The result? Better durability, fewer failures and a surface you can confidently warrant and maintain.

SUNDEK & NOVA SPORTS U.S.A.

**YOU STAND ON IT.
WE STAND BEHIND IT.**

PREPARATION & REPAIR SYSTEMS

NOVA SPORTS PREPARATION & REPAIR PRODUCT LINE

Installers certified with SUNDEK + Nova Sports USA handle everything from repair through final top coat. One workflow, one team.

- **CP-761 (Concrete Primer)** – Acrylic polymer emulsion; promotes adhesion between concrete substrate and acrylic top coat.
- **WB 100 (Water-Based Epoxy Primer)** – Two-part water-based epoxy for concrete; no acid etching required; tinted black to hide and limit moisture vapor transmission.
- **Novabond (Patch & Concrete Slurry Binder)** – Acrylic patch binder for high-performance patching mixes and for slurry mixes that promote adhesion between the acrylic layer and concrete.
- **Novasurface (Acrylic Resurfacer)** – Ultra-premium high-solid acrylic resurfacer designed to hide pavement defects before the color system is applied.
- **Novacaulk (Crack Filler)** – Two-step elastomeric crack repair system for hairline cracks (<math>< \frac{1}{2}"</math> width).
- **Novalevel (Leveling Compound)** – High-solid, ready-to-use acrylic paste designed to repair pavement defects and cracks up to 1" width.

TENNIS COURT SYSTEMS

ELITE TENNIS SURFACE SYSTEMS

For tennis, Nova Sports offers their **Novacrylic® line** – built for performance, comfort and longevity.

CHOOSE FROM

- **Combination Surface®** – Acrylic textured system, high resilience, low-abrasive finish.
- **Novacushion®** – Fine-rubber filled acrylic cushion blend for enhanced comfort and reduced fatigue.
- **Ultracushion®** – Ultimate shock-absorbing solution: EPDM rubber granules with super-soft elastomeric binder for top-tier performance.

Benefits: Consistent ball bounce, low glare, UV resistance, reduced wear for shoes/balls/players.

Installer note: Sundek-trained teams deliver these premium surfaces with professional finish and warranty integrity.

BASKETBALL, MULTI-SPORT & PICKLEBALL SYSTEMS

IMAGES:
NOVA SPORTS USA

Beyond tennis, Nova Sports' systems serve playgrounds, basketball courts, inline skating surfaces and pickleball.

KEY SYSTEMS:

- **Novaplay®** – Heavy duty acrylic color coating system for basketball, recreation courts, schools and parks.
- **Novaplay II®** – Extra heavy-duty version for inline skating, high-impact use and tough traffic.
- **Pickleball & Track finishing systems** – Custom color, line-mark options, flexibility for multiple sports.

Why this matters: Sundek + Nova means one installer team, one surface provider, for all your court / recreation needs – from tennis to multi-sport to pickleball and beyond.

VERSATILE MULTI-SPORT & RECREATION SURFACES

INSTALLATION & RESURFACING WORKFLOW

YOUR WORKFLOW WITH SUNDEK + NOVA SPORTS

OUR INSTALLER PROCESS ENSURES SEAMLESS
DELIVERY FROM START TO FINISH:

INSPECT & ASSESS

EXISTING SURFACE, SUBSTRATE
CONDITION, CRACKS, ADHESION,
DRAINAGE. ■ FIRST STEP

CLEAN & REPAIR

REMOVE LOOSE MATERIAL; USE
NOVACAULK/NOVALEVEL FOR
CRACK & DEFECT REPAIR ■ SECOND STEP

PRIME SUBSTRATE

CHOOSE CP-761 OR WB 100
DEPENDING ON SUBSTRATE. ■ THIRD STEP

RESURFACE

APPLY NOVASURFACE OR
NOVAPLAY BASECOAT TO RESTORE
OR PREPARE OVERLAY. ■ FOURTH STEP

TOPCOAT & COLOR SYSTEM

INSTALL NOVA'S COLOR COATINGS,
CUSHION SYSTEMS, TEXTURES AS
PER SPECIFICATION. ■ FIFTH STEP

LINE MARKING & FINISHING

APPLY SPORT LINES, LOGOS,
PERIMETER FINISHES. ■ SIXTH STEP

MAINTENANCE & WARRANTY

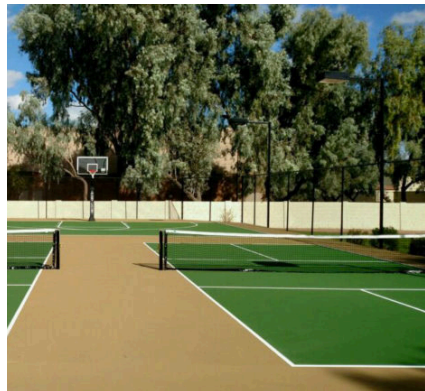

PROVIDE CLIENT WITH
MAINTENANCE GUIDANCE;
SUPPORT WARRANTY BACKED BY
NOVA. ■ SEVENTH STEP

TRANSFORM YOUR COURT PROJECTS TODAY
