

Tuscan

FEATURES & BENEFITS

DESCRIPTION

Sundek's Tuscan texture effect provides the old-world European elegance you desire with an investment you can afford. Design effects such as Custom Scoreline, Masonry Effects, flagstone, and slate can be added to further enhance a project's appeal. SunColor, SunGlaze, or SunStain are applied to bring your project to life.

Tuscan is achieved by hand-trowelling every installation into a custom texture of high and low areas.

FEATURES & BENEFITS

- Custom hand-troweled texture
- Thin overlay with the look of a thick stamped overlay
- Can be applied over concrete, brick, walls, drywall, cinder block, and more
- Option to add various design elements
- Can replicate the look of wood planks, tile, or flagstone at a fraction of the cost
- Add color with stains, acrylic finishes, colored oxides, or clear finishes
