Description & Key Benefits

SunFlek flooring is a durable and attractive seamless flooring system. It incorporates colored quartz aggregate in a tough epoxy matrix and is sealed with specially formulated clear epoxy or polyurethane. The high strength surface provides excellent wear resistance, sanitation and chemical resistance. Surface texture can be varied from a nearly smooth finish to an aggressive slip-resistant surface for wet areas.

Common Applications

- Food Preparation Areas
- Laboratories
- Health Care Facilities
- Manufacturing Areas
- Garage Floors
- Public Bathrooms
- Correctional facilities
