

MATERIAL SAFETY DATA SHEET

1. COMPANY AND PRODUCT INFORMATION

Product Name: Sundek SunOne Clear Polyaspartic, Part B

Supplier

Sundeck Products USA, Inc

805 Ave. H Suite 508 Arlington, Texas 76011

For health and safety questions: Phone number (888) 390-0305 Fax number (817) 649-7292 E-mail: products@sundek.com For Chemical Emergency
Spill, Leak, Fire, Exposure, or Accident
Call CHEMTREC Day or Night

Within USA and Canada: 1-800-424-9300
Outside USA and Canada: 1-703-527-3887
(collect calls accepted)

2. GENERAL INFORMATION

Product Class: Aliphatic Polyisocyanate

HMIS Codes: H F R P

2 1 1 G

3. HAZARDOUS INGREDIENTS

Aliphatic Polyisocyanate

(*) Listed in TSCA Inventory

4. PHYSICAL DATA

Boiling Point:N/ESolubility in Water:SolubleVapor Pressure:N/EEvaporation Rate:N/E

Vapor Density: N/E Appearance: Clear/Pale Yellow

Specific Gravity: N/E Odor: Slight

Percent Volatiles: None

5. FIRE AND EXPLOSION HAZARD DATA

Flash Point: Greater than 250° F (SETA Flash c.c.)

Flammable Limits:

LEL: N/E

Extinguishing media:

Dry chemical, carbon dioxide, foam water.

Special Fire Fighting Procedures:

Fire-fighter should wear self-contained breathing apparatus and full protective clothing. Use water spray to cool nearby containers and structures exposed to

fire.

Fire and Explosion Hazards:

During fire, HDI vapors and other highly toxic gases may be generated. Closed containers may explode when exposed to extreme heat or when

contaminated with water.

Hazardous Combustion Products:

Carbon dioxide, carbon monoxide, oxides of nitrogen traces of HDI and HCN.

6. REACTIVITY DATA

Stability: Stable

Hazardous Polymerization: May occur; contact with moisture or other materials which react with isocyanates or

temperatures over 400°F may cause polymerization.

7. HEALTH HAZARD DATA

Primary Route of Entry: Inhalation, skin contact, eye contact

Eye Contact: May cause tearing, reddening and swelling accompanied by a stinging sensation.

Skin Contact: May cause irritation, reddening, swelling, rash, scaling or blistering.

Ingestion: No adverse effects found.

Inhalation: Vapors or mist above the TLV can irritate the mucous membranes in the respiratory tract

causing runny nose, sore throat, coughing, chest discomfort and reduced lung function.

Persons with a pre-existing non-specific bronchial hyperactivity can respond to

concentrations below the TLV with similar symptoms or an asthma attack. Exposure well

above the TLV may lead to bronchitis, bronchial spasm and pulmonary edema.

Chronic Overexposure: Can lead to sensitization (chemical asthma). Symptoms would include chest tightness,

wheezing, cough, shortness of breath or asthmatic attack which could be immediate or delayed up to several hours after exposure. Chronic overexposure has been reported to

cause lung damage which may be permanent.

8. FIRST AID

Eyes: Flush with clean water for at least 15 minutes while lifting eyelids. Call physician immediately.

Skin: Remove contaminated clothing immediately. Wash affected areas thoroughly with soap (green tincture

soap is recommended) and water. For severe exposures, get under safety shower after removing

clothing. Get medical attention.

Ingestion: Do not induce vomiting. Give 1 or 2 cups of milk or water to drink. Consult physician.

Inhalation: Move to fresh air. Administer oxygen or artificial respiration as needed. Obtain medical attention.

9. SPECIAL PROTECTION INFORMATION

Respiratory Protection: A respirator that is approved for use in isocyanate containing environments (air purifying

or fresh air supplied) is necessary for spray applications or other situations such as high

temperature use which may produce volatilization.

Ventilation: General dilution ventilation that maintains vapor levels below the appropriate exposure

limit is recommended.

Eye Protection: Safety glasses or goggles are recommended.

Skin Protection: Impermeable gloves are recommended.

10. SPILL OR LEAK PROCEDURES

Steps to be taken if material is released or spilled: Wear protective equipment to prevent exposure. Collect spill

with absorbent material. Flush area with a 5% TSP/water

solution.

Waste Disposal Method: Dispose of in compliance with federal, state or local government

regulations.

11. SHIPPING DATA

D.O.T. Shipping Name: Paint Related Materials **Technical Shipping Name:** Paint Related Materials

D.O.T. Hazard Class: 3 Flammable Liquid

UN/NA Number: UN1263 Reportable Quantity: N/A

D.O.T. Labels Required: Flammable

Shipping Class: 55 Packing Group: III
